EXPERIENCE

ELEVATE AB

Front-End Developer | Aug 2020 - Feb 2021

- Worked on an application listed on the Shopify app store from initial design to development that helps merchants increase revenue with A/B testing.
- Utilized the Shopify API to handle functions necessary for the application to best serve Shopify merchants.
- Collaborated in an agile scrum environment to implement new features and worked cohesively with designers and developers.
- Used React and Next.js to develop pages for applications with a responsive design.

PROJECTS

SNAPSITE   http://bit.ly/37T6OsZ

- Developed a modern responsive tech site with multiple pages displaying product features
- Built using React and Next.js taking advantage of SSR static blog posts and pages

SHOPPEUR   http://bit.ly/2O0Tvjc

- Created a modern responsive eCommerce website using React and Next.js that displays products by categories
- Integrated a functional cart, product search and checkout features with images served from a CDN

EDUCATION

RUTGERS UNIVERSITY

Major in Computer Science
